Profile

Front-End Developer with a strong foundation in HTML5, CSS, and JavaScript, eager to apply my skills in a professional setting. Proficient in developing responsive and user-friendly interfaces, collaborating with designers and back-end teams, and ensuring cross-browser compatibility through thorough testing and debugging. Actively seeking an opportunity as a trainee or junior developer to contribute to projects while continuously expanding my expertise. Open to both full-time and part-time roles.

Projects

First Project at GoIT Course

Developed a fully responsive web page, starting from the mobile version and scaling up to the desktop layout.

Technologies: HTML, Semantic HTML, CSS

My Contribution: Designed and implemented the entire project independently, following best coding practices. Utilized semantic HTML to enhance accessibility and SEO optimization. Applied modern CSS techniques to create a visually appealing and responsive layout.

This project showcases my ability to build structured, responsive, and well-styled web pages from scratch.

Project-code: "https://github.com/Belevtsov91/goit-markup-hw-06"

Portfolio 2.0

Portfolio 2.0 is a modern, responsive web application designed to showcase our skills through a clean and interactive portfolio. Built with JavaScript, HTML, and CSS, it leverages Vite for optimized development speed and performance.

Technologies: JavaScript, HTML, CSS, Vite

My Contribution:

Developed a fully responsive footer section using HTML and CSS. Implemented dynamic functionality using JavaScript to enhance user experience. After completing my primary task, I actively assisted my team, resolving issues and ensuring we met our project deadlines. This project highlights my ability to create interactive, high-performance web applications while collaborating effectively in a team environment.
